Electric Fires

FireFX

Illuminate Every Moment

Designed to breathe new life into your space, the FireFX electric fire range has been built to provide a simple and easy-install solution to achieving a flawless fireplace centrepiece. All models put full control over heat and ambience in the palm of your hand using the included remote control. See page 9 for details.

Atmos Electric Fires

With a choice of sizes, the Atmos range combines magnificent flame and ember visuals with a space-saving design suitable for inset, suite, or media wall installations.

Anya and Amara Electric Fires

The Anya and Amara are two stylish 16" electric fires, each complementing spectacular flame and ember visuals with their own unique flair.

Seven-day timer function

Options for inset, suite, or media wall installations

Designed for simple plug and play installation

Ecodesign Compliant energy saving features

13 fuel bed lighting colours plus spectrum mode

Various flame combinations of yellow and orange

Amara
In Chrome & Black

>< SLIM-DEPTH

140mm

Slim Design. Simple Install.

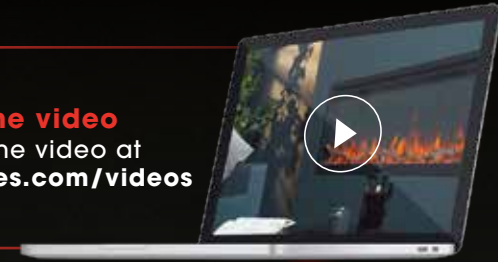

With its ultra-slim 140mm depth and easy slot-in installation, the Atmos is perfect for fitting into pre-made openings - ideal for media walls or fireplace suites where space is limited. Its integrated frame neatly hides any plastering imperfections around the opening, ensuring a clean and professional finish.

Authentic Glowing Logs

FireFX electric fires feature realistic faux logs sat upon a bed of blackened glass media, mimicking the look of a real fire. For added authenticity, sections of the are semi-translucent, allowing the fire to glow through alongside the flame and fuel bed to recreate the aesthetic of a real log fire.

Ember bed up-lighting

Designed to bring the ember bed to life, FireFX electric fires feature an up-lighting system which illuminates the realistic log and ember effects from below, for a lifelike display. Choose from 13 varied colours or the ever-changing spectrum mode for your fuel bed lighting, providing everything from a vibrant hue to an authentic glow. Five brightness settings allow for a bright glow, subdued flicker, and everything in between.

Realistic flame effects

Enjoy five flame colour variations and five brightness settings, letting you experiment to find the perfect flame for your mood.

Enjoy with or without the heat

Want to enjoy your fire for its ambience alone? With the option to turn the heat function on or off, independently of the flames and ember bed lighting, you can enjoy the fire's stunning effects and ambience all year round.

Ecodesign & Zero Emissions

Using innovative energy saving features such as open window detection, all FireFX electric fires are compliant with stringent Ecodesign energy product standards. These fires deliver zero direct emissions, providing clean, efficient, and environmentally responsible warmth. When powered by renewable energy such as solar or wind, they offer an even greener way to enjoy comfort and ambience.
